## Education

- **Nanyang Technological University** Singapore  
*B.Eng (Hons) in Computer Engineering with Minor in Business* Sep 2010 - May 2014
  - Awarded **first class honours degree** with GPA **4.67** on a scale of 5.0
  - Proudly listed in Dean's List for Academic Year 2013-2014

## Working Experience

- **Works Applications** Singapore  
*Software Engineer* Oct 2014 - Present
  - Currently developing dropbox-like enterprise drive application on top of High Usability Enterprise (HUE), which is a brand new product
  - Developed globalization features for High Usability Enterprise at framework level
  - First batch to pass the training programme with only two and half months
- **IBM Research Collaboratory** Singapore  
*Summer Research Intern* May 2013 - July 2013
  - Explored solutions to encourage employees' productivity on IBM Connections
  - Designed MySQL independently to store data of IBM Connections from scratch
  - Implemented three different algorithms in Python to perform summarization tasks

## School Projects

- **Final Year Project, Visual Event Recognition in Videos** Feb 2013 - Dec 2013
  - Researched and implemented a framework to recognize different images and videos
  - Explored **cutting-edge** Transfer Learning approaches including Feature Replication, Adaptive SVM, Multiple Kernel Learning and Adaptive MKL
  - Incorporated Near Duplication Detection into this framework **creatively**
- **CPE433 Machine Learning, Face Recognition Project** Mar 2013
  - Developed a face recognition system in Java based on machine learning knowledge
  - Implemented three different methods: eigenfaces, fishfaces and laplacianfaces
  - **Led** a group of three to achieve this project with high quality in only 20 days
- **Undergraduate Research Experience on Campus** Oct 2011 - May 2012
  - Developed an android mobile application with cloud assisted independently
  - Awarded as NTU President **Research Scholar** for this accomplishment
  - Research paper was included in the "Proceedings of the URECA@NTU 2011-12"

## Skills

**Technique Skills:** Java, Python, Javascript, C, C++, SQL, OOP, UML, Design Patterns

**Languages:** Fluent in written and spoken English and Chinese
